## View your basic network information and set up connections

### View your active networks

**Network**  
Private network

Access type: Internet  
HomeGroup: [Ready to create](#)  
Connections:  Ethernet

### Change your networking settings

[Set up a new connection or network](#)

Set up a broadband, dial-up, or VPN connection; or set up a router or access point.

[Troubleshoot problems](#)

Diagnose and repair network problems, or get troubleshooting information.

←  Set Up a Connection or Network

### Choose a connection option

-  **Connect to the Internet**  
Set up a broadband or dial-up connection to the Internet.
-  **Set up a new network**  
Set up a new router or access point.
-  **Connect to a workplace**  
Set up a dial-up or VPN connection to your workplace.

**Next** Cancel

← Connect to a Workplace

Do you want to use a connection that you already have?

- No, create a new connection
- Yes, I'll choose an existing connection

VPN Connection 2  
WAN Miniport (IKEv2)

Next

Cancel

←  Connect to a Workplace

How do you want to connect?

→ Use my Internet connection (VPN)  
Connect using a virtual private network (VPN) connection through the Internet.

→ Dial directly  
Connect directly to a phone number without going through the Internet.

Cancel

←  Connect to a Workplace

### Type the Internet address to connect to

Your network administrator can give you this address.

Internet address:

151.234.190.242

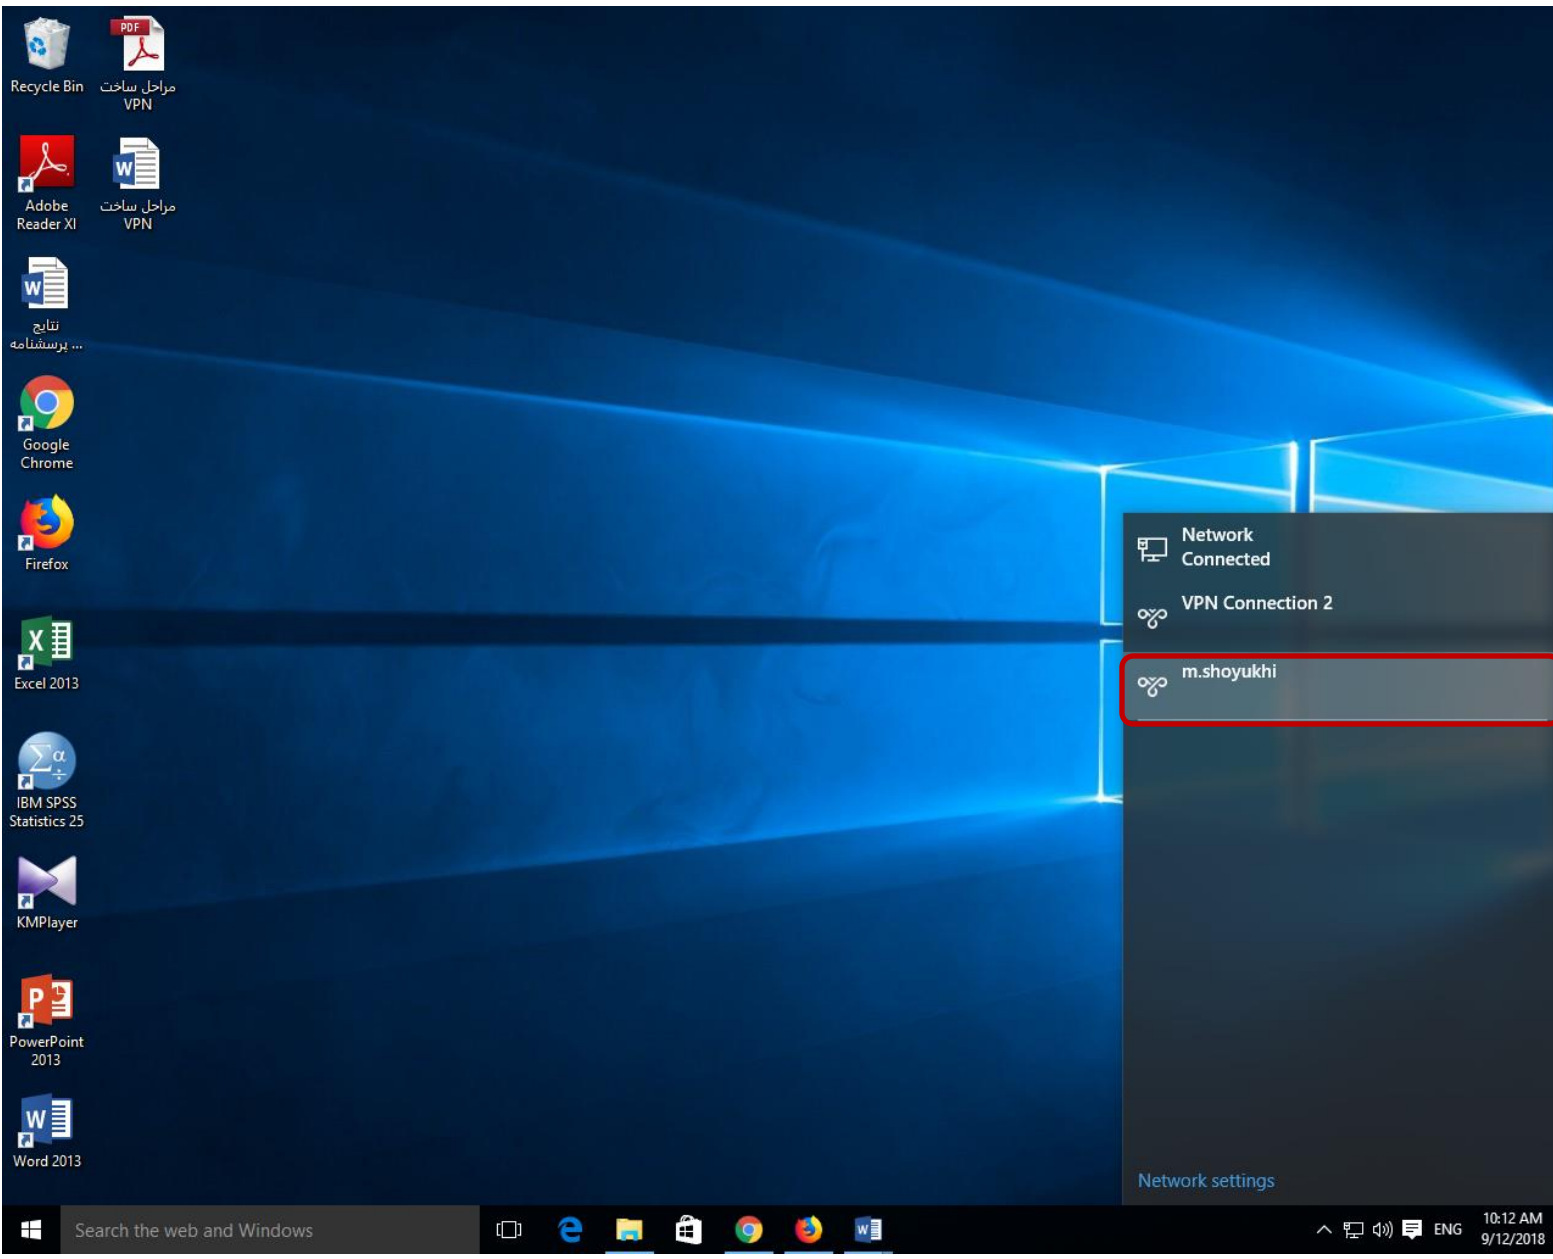

Destination name:

m.shoyukhi

- Use a smart card
- Remember my credentials
-  Allow other people to use this connection  
This option allows anyone with access to this computer to use this connection.
